

Winter Nail Ice Crystals

Create a winter look using ASP Skin Tones Full Coverage Nails and ASP Quick Dip Ice Crystals.

PRODUCTS NEEDED:

- ASP Skin Tones Full Coverage Nails (010043)
- ASP Nail Builder Curing Gel (006611)
- ASP Soak Off Gel Bonder (156752)
- ASP Step 5 Top Coat (156750)
- Block Buffer (203012)
- ASP Quick Dip Ice Crystals (004758)
- ASP USB LED Curing Lamp (002230)

1 Apply a thin coat of **ASP Nail Builder Curing Gel** to the nail plate & to the well of the nail tip.

2 Apply the nail tip to the cuticle area of the nail & press down to squeeze out any bubbles.

3 With the **ASP USB LED Curing Lamp** flash cure in place & then fully cure for 60 seconds.

4 Prepare nail tip, remove shine with a 180-grit **Block Buffer**.

5 Apply a coat of **ASP Step 5 Top Coat**.

6 Use **ASP Quick Dip Ice Crystals**.

7 Pour **Ice Crystals** liberally over top coat application.

8 Pour a thick & consistent application.

9 Tap off excess powder & Cure with the **ASP USB LED Curing Lamp**.

10 Remove excess product with a manicure brush.

11 Final look.
