### PRODUCTS YOU WILL NEED

Pterygium Remover & Spoon Pusher, Zebra Angle Board Nail File 180/180, Acidless Primer, Form-A-Nail Forms, **Versatility Gel (Fuzzy Slippers)**, Ultra Birchwood Manicure Sticks, LUMINA Rechargeable LED/UV Lamp, No Wipe Top Coat, Milk & Honey Hand & Body Dry Oil.

### Product Spotlight

Versatility Gel has the dreamiest consistency—making nail extensions smooth, easy, and totally stress-free!

### NAIL PREP

**1** Gently push back the cuticle and scrape away any loosened cuticle from the nail plate.

**2** Remove dust and debris using a soft brush.

## VERSATILITY GEL - FORM-A-NAIL-EXTENSION

**3** Gently remove the shine of the nail using a 180 grit nail file or buffer.

**4** Shape the nail to desired length and shape and remove dust with a manicure brush.

**5** Apply Acidless Primer to the natural nail avoiding skin.

### LET'S USE FORM-A-NAIL

**1** Size the form for each nail from sidewall to sidewall.

#### PRO TIP

It's better for the form to be slightly bigger than the nail rather than too small.

**2** Squeeze a large bead of versatility gel into the well of the form. The bead size will depend on how long you want the nails to be.

#### PRO TIP

Medium beads are used to overlay the natural nail, while more product is needed to create longer extensions.

**3** Place the well of the tip at the cuticle and gently press down towards you, pushing out any bubbles.

**4** Press down on the form until the product reaches the desired length of enhancement.

## VERSATILITY GEL - FORM-A-NAIL-EXTENSION

**5** Remove excess gel with a woodstick, or smooth edges with a gel brush.

**6** Allowing product to remain on the skin can cause lifting.

**7** Cure for 60 seconds in the LUMINA LED/UV lamp.

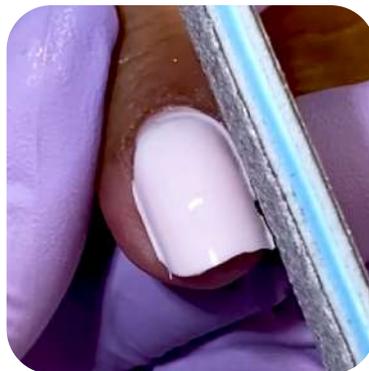

**8** Once the product is cured, gently squeeze the form to release it from the nail, then slightly twist it toward you until it comes off.

**9** Repeat all steps for each finger.

**10** Once all the forms are removed, turn the hand over and cure for 60 seconds.

**11** Gently, shape the perimeter of the nail with a 180-grit nail file.

**12** Smooth the surface of the nail if needed and remove dust.

## VERSATILITY GEL – FORM-A-NAIL-EXTENSION

**13** Apply No Wipe Top Coat.

**14** Cure for 60 seconds in the LUMINA LED/UV lamp.

**15** Finish the look with Milk and Honey Dry Cuticle Oil and gently massage the skin.
