Product Spotlight

Versatility Gel has the dreamiest consistency—making nail extensions smooth, easy, and totally stress-free!

NAIL PREP

1 Shape the nail to desired length and shape and remove dust with a manicure brush.

2 Gently push back the cuticle and scrape away any loosened cuticle from the nail plate.

VERSATILITY GEL – NATURAL NAIL OVERLAY

3 Gently remove the shine of the nail using a 180 grit nail file or buffer.

4 Use a lint free cloth or pad with the ASP 2-n-1 Dehydrator & Cleansing Wipe to thoroughly cleanse the nails of any dust or debris.

5 Apply Acidless Primer to the natural nail avoiding skin.

LET'S USE NATURAL NAIL OVERLAY

1 Squeeze a medium sized bead of ASP Versatility Gel in Fuzzy Slippers, onto a birchwood manicure stick. Gently roll the bead onto the nail plate.

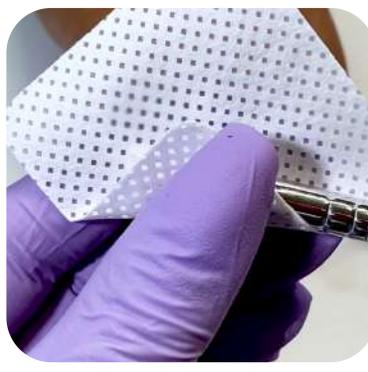

PRO TIP
As you work your way down the nail, hold the brush parallel to the nail and stretch the gel to the very edge of the nail.

2 Use a Flat Gel gel brush & ASP 2-in-1 solution to push & pat gel into place from the cuticle to the free edge.

3 Excess product can be easily removed by pulling it to the edge of the nail and brushing down to remove.

4 Clean off excess gel with a lint-free wipe.

PRO TIP
Keep your brush saturated with ASP 2-in-1 solution for smooth Versatility Gel application. If product touches the skin, clean it with a wood stick or gel brush.

VERSATILITY GEL – NATURAL NAIL OVERLAY

5 Smooth the edge of the nail to create a clean look.

6 Cure for 60 seconds in the LUMINA Rechargeable Lamp.

7 Shape and refine the enhancement with the Zebra 180 grit file.

PRO TIP

Do not file to much as to not remove too much product. Your overlay will be almost perfect already.

8 Apply No Wipe Top Coat & cure for 60 seconds.

10 Finish the look with Milk and Honey Dry Cuticle Oil and gently massage the skin.
